PRODUCTS INC.

Phillips Safety is the industry leader in occupational safety eyewear. In business for over 100 years, you are being served with the dedication and craftsmanship of a family owned company.

Phillips Safety has been producing occupational safety glasses since 1905 and continues to develop and produce the highest quality glasses and lenses today. A leading manufacturer of specialty safety eyewear in the United States, Phillips Safety adheres to strict ANSI Z87-2+ and EN 207 CE standard certifications, holding itself to a highest standard and prides itself on producing glasses with the finest quality materials available.

All safety glasses produced and sold by Phillips Safety meet strict industry standards for military, medical, research laboratories, and a variety of other industries.

With Phillips Safety's dedicated team, you can rest assured knowing that all your prescription safety needs are met.

CATEGORY INFORMATION

ERYAG LASER SAFETY GLASSES

Laser safety glasses are specialized eyewear designed to protect the eyes from the potentially harmful effects of laser radiation. These glasses are equipped with special optical filters that selectively absorb or reflect specific wavelengths of laser light, ensuring that only safe levels of light reach the eyes. They are crucial for individuals working in environments where lasers are used, such as in research laboratories, medical facilities, and industrial settings.

Phillips Safety's ERYAG laser safety glasses feature an advanced polycarbonate clear lens filter designed to provide exceptional laser protection. The combination of Phillips Safety's expertise in laser safety and the optimal features of the ERYAG laser safety glasses makes them an ideal choice for professionals seeking superior optical performance and uncompromising safety in laser-intensive work settings.

With a visible light transmission of 91%, these glasses offer a remarkable balance between protection and visual clarity. This VLT ensures that wearers can maintain clear vision while safeguarding their eyes from potentially harmful laser radiation.

ERYAG LASER SAFETY GLASSES

Plus, it allows for a practical and comfortable user experience across a range of lighting conditions.

It is important to note that they are engineered for specific laser wavelengths, offering precise protection with the following Optical Density (OD) ratings:

OD8+ @ 190-395nm

OD8+ @ 2770-3000nm

In addition, our ERYAG laser safety glasses meet and exceed industry safety standards. They are rigorously tested and comply with ANSI Z87.1 and ANSI Z136.1 safety standards, ensuring your peace of mind in laser-intensive environments.

Whether working in research and military, in a medical facility, or in an industrial setting, Phillips Safety's ERYAG laser safety glasses offer essential protection without compromising vision clarity, promoting both safety and efficiency in diverse professional environments. For unparalleled laser safety, choose Phillips Safety's glasses.

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 66

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 66 have a durable and lightweight oversized frame. Made of high-quality plastic, the 66 laser safety glasses feature adjustable temple bars and permanent side shields. In addition, these Phillips Safety laser safety glasses are available in black and silver.

FRAME SPECIFICATION

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 300

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 300 have a durable and lightweight rectangular frame. Made of high-quality plastic, the 300 laser safety glasses feature adjustable temple bars and permanent side shields. In addition, these Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 808

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 808 have a durable and lightweight wrap around frame. Made of high-quality plastic, the 808 laser safety glasses feature rubberized nose pads and rubberized temple bars. In addition, these Phillips Safety laser safety glasses are available in black and silver.

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 1375

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 1375 have a durable and lightweight rectangular frame. Made of high-quality plastic, the 1375 laser safety glasses feature bent temple bars and integrated side shields. In addition, these Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 9388

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 9388 have a durable and lightweight oversized frame. Made of high-quality plastic, the 9388 laser safety glasses feature adjustable temple bars and integrated side shields. In addition, these Phillips Safety laser safety glasses are available in black.

FRAME SPECIFICATION

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 16001

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 16001 have a durable and lightweight wrap around frame. Made of high-quality plastic, the 16001 laser safety glasses feature adjustable nosepads. In addition, these Phillips Safety laser safety glasses are available in black/blue.

FRAME SPECIFICATION

PRODUCT INFORMATION
ERYAG LASER SAFETY GLASSES 17001

The ERYAG laser safety glasses have a polycarbonate clear lens filter that provides laser protection. These laser glasses have visible light transmission of 91%. Plus, the ERYAG laser safety glasses meet ANSI Z87.1 and ANSI Z136.1 safety standards. Moreover, these laser safety glasses 17001 have a durable and lightweight rectangular, wrap around frame. Made of high-quality plastic, the 17001 laser safety glasses feature rubberized temple bars. In addition, these Phillips Safety laser safety glasses are available in black/green.
